

bee safe

neighborhoods

Dear _____,

As you may know, the Eiber Neighborhood has taken a pledge to become Bee Safe by eliminating the use of systemic pesticides in our yards. Bees and other pollinators are essential for over one-third of the food crops humans eat. These same bees and pollinators are dying in unprecedented numbers. By ending the use of systemic pesticides in my home, I hope to help pollinator populations recover and thrive.

I would like to encourage your establishment to help us become Bee Safe by carrying alternative options to these systemic pesticides. Please visit Eiberhood.Org/BeeSafe to learn more about your options for providing non-systemic, organic alternatives.

Sincerely,
